Minor in Engineering Management
Application Form

Student name: ___________________________  Anticipated Graduation date: ____________
Social Security #: ________________________

General Requirements
The Minor in Engineering Management requires satisfaction of the following requirements:

1. Student must be an engineering major.

2. Student must complete a program, approved by their advisor in their major and the
   Engineering Management Program Director, consisting of a minimum of twenty (20) units
   from the courses listed below. One of the twenty units may be from ENGR 25, Professional
   Practice Seminar.

3. Courses that count toward a minor cannot be taken on a “pass/no credit” basis.

4. Student must maintain a minimum GPA of 2.0 in the minor program.

5. Course prerequisites (where applicable) must be taken as required (e.g., BUSI 107 requires
   ECON 53 and Junior standing).

Course Requirements
